

Pulling lug

TLA-MOV-PLUG-01

Section 3 — Container Moving

1 PRODUCT OVERVIEW

Used when a container must be pulled or dragged into position without lifting equipment — common on construction sites, in container depots, and during modified container installations where crane or forklift access is restricted. The lug body engages the ISO 1161 corner casting aperture and presents a forged eye or hook for chain, wire rope or shackle attachment. Designed exclusively for horizontal ground-level loading — not rated or approved for vertical lifting. Typical applications include pulling containers onto trailer beds, aligning containers on site foundations, and manoeuvring containers in tight spaces. Specify the expected pull load and application when ordering to confirm the correct variant and connection arrangement.

2 SPECIFICATIONS AT A GLANCE

SKU / Part No.	TLA-MOV-PLUG-01
Material	Steel plate
Load Rating	On application
Finish	Hot dip galvanised, painted Sunrise Yellow
Applicable Standard	ISO 1161 corner casting interface; NOT rated for vertical lifting
Unit Weight	On application

3 LOAD & PERFORMANCE DATA

Load Rating (SWL / MBL)	<i>On application</i>
-------------------------	-----------------------

4 DIMENSIONS & WEIGHT

Dimension	Value
Overall Dimensions (L × W × H)	<i>On application</i>
Unit Weight	<i>On application</i>

5 MATERIALS, FINISH & COMPLIANCE

Material / Construction	Steel plate
Finish / Coating	Hot dip galvanised, painted Sunrise Yellow
Applicable Standards	ISO 1161 corner casting interface; NOT rated for vertical lifting
Compatibility / Fitment	<i>On application</i>
Country of Origin	<i>On application</i>

6 APPLICATIONS

- Container depot repositioning
- alignment onto trailer or low-bed
- site foundation placement
- workshop manoeuvring without crane
- low-clearance and restricted-access sites
